DETAILED ACTION***Allowable Subject Matter***

Claims 1-19, 21-24 & 27 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to claim 1, the Ureda reference (US Patent 6,712,177 B2) discloses a mid-range loudspeaker array having a frequency range from substantially 250Hz to substantially 8KHz (col. 13, line 66 through col. 14, line 10), said loudspeaker array comprising at least one line source (fig. 19), each of which comprise a cone diaphragm driver and has a dispersion pattern angle of less than 60.degree. in a plane which is perpendicular to a one dimension of said one dimensional array at said loudspeaker (col. 11, lines 15-30), said loudspeakers having propagation axes in a common plane (col. 11, lines 15-30), propagation axes of said loudspeakers of said adjacent pairs in at least part of each said line source subtending an angle greater than 0 degree, said propagation axes of said loudspeakers of each said adjacent pair in each said line source subtending an angle of less than or substantially equal to 10 degrees (col. 7, lines 34-48). The Ureda reference taken alone or in combination with another reference does not disclose or fairly suggest mid-range loudspeaker array where propagation axes in a common plane which in use, is vertical, each adjacent pair of said loudspeakers of each said line source being physically time-aligned in a direction bisecting said propagation axes of said loudspeakers of said adjacent pair as recited in claim 1. These aspects as summarized above are neither anticipated nor obvious by the prior arts of record.

Art Unit: 2615

Claim 27 is allowable for the same reason stated above.

Claims 2-19 & 21-24 depend on claim 1.
